

Letter Body

Hi NAL, I hope you have seen the GIF. You may be wondering what the heck is that. Please grab a chocolate this time, no .

Okay, I hope you have grabbed it !

Whenever you are in despair, not knowing where to look, you can always look in any direction, because I will be looking exactly there. You can throw the colorless facets of life on me, I will make sure I turn those monochrome shades into colorful ones. I want to choose a road which leads to you amidst all those twists and turns and diversions, like the GIF always ended at you, no matter how many times you played it.

Until next time

I LOVE YOU

Your's loving
